### DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-9, 10 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 6-9, 10 and 18, where possible, claims are to be complete in themselves. Incorporation by reference to a specific figure or table "is permitted only in exceptional circumstances where there is no practical way to define the invention in words and where it is more concise to incorporate by reference than duplicating a drawing or table into the claim. Incorporation by reference is a necessity doctrine, not for applicant's convenience." *Ex parte Fressola*, 27 USPQ2d 1608, 1609 (Bd. Pat. App. & Inter. 1993) MPEP 2173.05(s).

Reference to the figure does not sufficiently describe the claimed invention and is not the only way to describe the invention. Clearly, applicant has demonstrated that the invention can be described in words, particularly since formulations are used in claim 1 to describe the claimed invention.

### *Allowable Subject Matter*

Claims 1-5 and 19 are allowed.

***Response to Arguments***

Examiner acknowledges applicant's amendment to claims 6, 10 and 18.

Applicant's arguments filed October 24, 2006 have been fully considered but they are not persuasive. Applicant has not adequately addressed the reference to the figure as insufficiently describing the claimed invention, thereby resulting in lack of definition of the invention. As indicated above, reference to the figure does not sufficiently describe the claimed invention and is not the only way to describe the invention. Clearly, applicant has demonstrated that the invention can be described in words, particularly since formulations are used in claim 1 to describe the claimed invention.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1775

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
